Knee, instep & elbow functional zones

Ensuring improved freedom
of movement & less skin irritation

These Functional Zones Adapt to Every Movement

Made for the elbow, instep (or ankle) and knee, **Functional Zones** are perfect for active patients—maintaining consistent pressure during any activity. This flat knit Juzo Expert garment option creates the perfect fit with minimal creasing to protect sensitive skin & reduce irritation.

The Functional Zones:

- Consistent pressure in all joint positions helps reduce swelling
- Improved fit increases freedom of movement
- Reduces creasing & irritation
- Protects sensitive skin

Flat knit

Elbow Functional Zone

The elbow **Functional Zone** allows for easy and comfortable elbow movements. Our special knitting technique reduces creasing, preventing pressure points & skin irritation. From carrying children to playing tennis, this option is great for anyone who frequently bends their arms throughout the day.

Less constriction & creasing protect sensitive skin in the crook of the elbow.

Different knitting techniques help improve the fit while moving.

Indications:

- Skin irritation at the elbow or in the crook of the elbow
- Arthritic changes of the elbow joint
- Flexion contraction
- Activities that strain the arm or require constant bending

Knee Functional Zone

The **Knee Functional Zone** offers more flexibility to patients, whether they're sitting, standing or exercising. Made with material that has increased stretch, it covers the entire area around the knee, offering support through the full range of movement. Our special knitting technique ensures that the comfortably knitted fabric fits snugly at the back of the knee when bending.

Designed to reduce constriction & creasing behind the knee.

Different knitting techniques enhance freedom of movement.

Indications:

- Skin irritation at the back of the knee
- Arthritic changes of the knee joint
- Flexion contraction
- Primarily sedentary activities

Instep Functional Zone

The **Instep Functional Zone** adapts perfectly to any foot position combining therapeutic compression with an optimal fit to provide more freedom of movement. Comfortably knitted fabric minimizes creasing around the ankle and helps prevent irritation for sensitive skin.

90-degree stitching enhances freedom of movement.

Prevents constriction and creasing in the instep area.

Indications:

- Skin fold in the instep area
- Prominent extensor tendon
- Pronounced heel
- Primarily sedentary activities

High-End Knitting Technology for Improved Freedom of Movement

Continuous compression in all joint positions is therapeutically effective. Juzo Functional Zones combine the benefits of different knitting techniques to achieve consistent compression and allow comfortable movement of the ankle, elbow & knee.

Availability:

- Available in Juzo Expert.
- Compression classes 1 – 3 (18 – 46 mmHg).
- Elbow Functional Zone for all sleeves, sleeves with shoulder cap or strap, as well as a bolero that reaches at least to the measuring point.
