

New Children's Decals for Flat Knits

Choose from 12 great Little Julius and friends decals that can be applied to a child's flat knit garment.

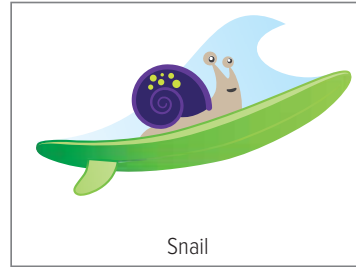

Treatment of a burn injury, scar or lymphedema can often take a long time. Children in particular need a lot of support to ensure the necessary compliance for successful healing. With "Julius, the little helper", Juzo wants to help affected children and their parents through the difficult time after an diagnosis. Little Julius and friends aim to inspire children and encourage them to wear their compression garment consistently to promote healing.
