

Custom Garments Produced in 72 Hours

At Juzo, we understand that time is of the essence when it comes to receiving a compression garment. Juzo's new MTM Express program produces custom, made-to-measure (MTM) garments that ship within 72 hours of us processing the order.

Juzo Express MTM Products

Our MTM Express program applies to Juzo knee highs, thigh highs, arm sleeves, gloves and gauntlets. For a complete list of available products, please go to ShopJuzo.com.

Place Orders Through ShopJuzo

The Juzo MTM Express program is only available on custom orders placed through ShopJuzo. Click on the MTM Express button and enter the order information. NOTE: the MTM Express option is only available on the order page – place all other custom orders through our standard MTM order portal on ShopJuzo.

72 Hour Express Production

The clock starts ticking once we process your order! The MTM Express program guarantees 72-hour production time – from the moment the order is processed until the garment is ready to ship. Shipping is not included in the 72-hour production window. Orders placed after 3pm Eastern time may not be processed until the next business day.

Contact us with questions. Thank you for trusting Juzo with your compression needs.
